

Remarks:

This Amendment is intended to put the U.S. national phase filing of the above identified International patent application in good form for allowance as a U.S. Patent.

The Specification

Applicants have amended the specification to conform to usual U.S. practice. No new matter has been added.

The Claims

Applicants have amended claim 1 into a form more usual and acceptable under U.S. patent practice. The subject matter for the claim amendments can be found in the originally filed claims and in the specification as filed. Accordingly, no new subject matter has been added.

The application is now deemed to be in condition for allowance and notice to that effect is solicited.

CONCLUSION

It is submitted that all of the claims now in the application are allowable. Applicants respectfully request consideration of the application and claims and its early allowance. If the Examiner believes that the prosecution of the application would be facilitated by a telephonic interview, Applicants invite the Examiner to contact the undersigned at the number given below.

Applicants respectfully request that a timely Notice of Allowance be issued in this application.

Applicants respectfully request that a timely Notice of Allowance be issued in this application.

Respectfully submitted,
